- Developing new functionalities, web service integration, feature improvement and collaborating with other teams to gain a quality product by suggesting UI, UX, functional and architectural related changes and enhancements.
- Working closely to senior roles CTO, Tech leads and Dev Ops

Technical Stack : Flutter, Javascript, Razor, Asp.Net, NodeJs, ReactJs, Android, iOS, REST, JWT

Skills

Software Development

Object oriented programming, Software Performance, Software Architecture, Design Pattern, Data structures, Unit Test, Distributed System, Web services, REST, Unit Test, CI integration

Mobile Development

Flutter (5 yr+) Bloc, Provider, ReactiveX, iOS (3 yr+, SwiftUI, UIKit), Android (3 yr+), ReactNative (1 yr+), UI, UX - Figma (2 yr+)

Languages

Dart (5 yr+), Java script(6 yr+), Type Script(4 yr+), Swift(3 yr) Objective C (1 yr), kotlin(3yr), Python (2-3 yr), Java (4.5 yr+), C# (2 yr+), Go (1yr), SQL, HTML, XML, JSON, CSS

Web Development

Asp.Net, Razor (2yr+), ReactJs (3.5 yr+), Node.js (3.5 yr+), expressJs, npm

Version Control System

git, GitHub, Bitbucket, Gitlab

AI, ML

Tensorflow, Keras, Python, NumPy, Neural network, model integration

Other

Analytical and Problem solving, Good interpersonal skills, Better communication skills (both written and verbal), Team work, Continuous Self-Improvement

Software Engineer

2016 - 2018

Awards

ACADEMIC EXCELLENCE

Batch top | 2016

Interests

Blogging, Mini Mobile App Development, Game Development with Unity (hyper casual), Learning languages

Digital Micro Services, (Colombo, Sri Lanka)

- Responsible for working on various layers of the project.
- Contributed to develop software projects for world class clients where software quality and performance standards are applicable.
- Mainly responsible for planning, developing, testing and integrating service oriented web services.
- Contributed on researching APIs, SDKs and development related tools in order to meet requirement of given scenarios.
- Worked closely with senior software engineers and contributed to plan, design, implement and ship new features as well as modifications.
- Regarding automating project modules deployment process also contributed in writing integration procedures using node.js and gulp.
- Also involved in project architecture and data modeling related discussion to gain an optimal design by making negotiations.
- Had a great opportunity to learn and observe the live environment of enterprise scale solutions.

Technical Stack : Java EE, Javascript, AngularJs, REST, Progressive Web Apps, MySQL, Elasticsearch

Web developer

2014 - 2015

Klickset Inc (Doha, Qatar)

- Was working on Presentation tier regarding UI development, UX improvement and web service integration.
- Contributed on code quality management and performance improvement.
- Had a great opportunity to learn new stuff to improve technical stacks.

Technical Stack : Javascript, jQuery, php, web-socket, MySQL
