Experience

RBuils | Senior IOS Developer & Product Designer

Jun 2025 - Present

Designed and architected scalable mobile applications from concept to launch, with a strong focus on UI/UX, performance, security, and analytics-driven decision making. Collaborated closely with clients through Figma workshops to translate business requirements into intuitive, user-centered experiences. Implemented Firebase Analytics, performance monitoring, and security best practices to improve reliability, engagement, and scalability. Provided technical consulting and architecture guidance.

Deriv | Senior Mobile Developer

Aug 2024 - Feb 2025

Maintained and enhanced Deriv Go and Deriv P2P mobile applications, delivering bug fixes and new feature implementations. Conducted in-depth codebase analysis to identify and manage technical debt, coordinating remediation efforts with the team. Performed PR reviews and code audits to uphold code quality and consistency. Collaborated closely with PMs and Product Owners to define, estimate, and plan deliverables. Managed Bitrise CI integration, ensuring stable build pipelines and supporting release cycle maintenance.

The Software Practice (Sg) | Sr. Software Development Engineer

Mar 2018 - Apr 2024

Planning, designing, and developing production-grade web and mobile applications aligned with business requirements. Contributed across the full development lifecycle from prototyping to deployment. Collaborated with cross-functional teams to enhance UI/UX, functionality, and architecture, ensuring product quality and scalability.
